

AUTHOR INDEX

VOLUME 9

- | | | | |
|--------------------------------|--------------------------|---------------------------|------------------------------|
| Armstrong, Donald, 435 | Fidel, Paul L., Jr., 335 | Maurin, M., 273 | Smith, Jean S., 166 |
| Arvin, Ann M., 361 | Fredricks, David N., 18 | Melnick, Joseph L., 293 | Sobel, Jack D., 335 |
| Bagnarelli, Patrizia, 135 | Fridkin, Scott K., 499 | Menzo, Stefano, 135 | Songer, J. Glenn, 216 |
| Bakken, V., 55 | Garibaldi, R. A., 1 | Midthun, Karen, 423 | Stanley, Samuel L., Jr., 126 |
| Bergogne-Bérézin, E., 148 | Gooding, R. H., 301 | Midura, Thaddeus F., 119 | Stenzel, D. J., 563 |
| Bolard, Jacques, 512 | Hogan, Laura H., 469 | Murphy, William H., 72 | Strausbaugh, L. J., 1 |
| Bolstad, A. I., 55 | Jarvis, William R., 499 | Nicolle, L. E., 1 | Stringer, James R., 489 |
| Boreham, P. F. L., 563 | Jensen, H. B., 55 | Olivo, Paul D., 321 | Towner, K. J., 148 |
| Brajtburg, Janina, 512 | Kapikian, Albert Z., 423 | On, Stephen L. W., 405 | Trout, James M., 349 |
| Capó, Virginia, 47 | Kiehn, Timothy E., 435 | Paolucci, Stefania, 135 | Urnovitz, Howard B., 72 |
| Clementi, Massimo, 135 | Klein, Bruce S., 469 | Raoult, D., 273 | Valenza, Anna, 135 |
| Clements, Janice E., 100 | Kozel, Thomas R., 34 | Relman, David A., 18 | Varaldo, Pietro E., 135 |
| Clerici, Mario, 532 | Levitz, Stuart M., 469 | Rudinsky, Mark F., 435 | Walker, David H., 382 |
| Despommier, Dickson D., 47 | Lillehoj, Hyun S., 349 | Sampaolesi, Riccardo, 135 | White, Mary H., 435 |
| Domachowske, Joseph B., 448 | Lucey, Daniel R., 532 | Saubolle, Michael A., 435 | Woods, Gail L., 382 |
| Espinel-Ingroff, Ana, 235 | Manzin, Aldo, 135 | Seydel, Karl B., 126 | Zink, M. Christine, 100 |
| Falkinham, Joseph O., III, 177 | | Shearer, Gene M., 532 | |

SUBJECT INDEX

VOLUME 9

- Acinetobacter* spp.
 - nosocomial pathogens, 148
- Amphotericin B
 - biological activity
 - carrier effects, 512
- Animal viruses
 - detection
 - transgenic cell lines, 321
- Antibiotic resistance
 - nursing homes, 1
- Arthropod vectors
 - genetic variation, 301
- Bartonella (Rochalimaea) quintana* infections
 - clinical manifestations, 273
 - diagnosis and treatment, 273
 - epidemiology, 273
 - pathophysiology, 273
 - prevention and risk factors, 273
 - taxonomy and bacteriology, 273
- Blastocystis hominis*
 - revisited, 563
- Botulism
 - infant, 119
- Campylobacters, helicobacters, and related organisms
 - identification methods, 405
- Clostridial enteric diseases
 - domestic animals, 216
- Complement system activation
 - pathogenic fungi, 34
- Cytokine dysregulation
 - infectious, neoplastic, and inflammatory diseases, 532
 - type 1 and type 2, 532
- Cytologic and histologic stains
 - detection of infection or infectious agents, 382
- Eimeria* parasites
 - avian gut-associated lymphoid tissues
 - intestinal immune responses, 349
- Enteric diseases
 - clostridial
 - domestic animals, 216
- Fungi
 - complement system activation, 34
 - medically important
 - virulence factors, 469
- Fusobacterium nucleatum*
 - biology, 55
 - periodontal aspects, 55
 - taxonomy, 55
- Human immunodeficiency virus infection
 - pediatric, 448
- Human immunodeficiency virus type 1 infection
 - quantitative molecular methods
 - clinical use, 135
- Lentivirus infections
 - animal
 - molecular biology, 100
 - pathogenesis, 100
- Letter to the Editor
 - human endogenous retroviruses, 585
- Medical mycology
 - history in United States, 235
- Mycobacteria
 - nontuberculous
 - epidemiology of infection, 177
- Mycobacterium haemophilum*
 - expanding clinical and geographic spectra, 435
 - microbiology, 435
- Mycology
 - medical
 - history in United States, 235
- Nosocomial fungal infections
 - epidemiology, 499
- Nosocomial pathogens
 - Acinetobacter* spp., 148
- Nursing homes
 - infections and antibiotic resistance, 1
- Parasitic disease
 - SCID mice, 126
- Pneumocystis carinii*
 - atypical fungus, 489
- Poliovirus infections
 - current status, 293
- Rabies
 - new aspects
 - diagnosis, 166
 - epidemiology, 166
 - prevention, 166
- Recurrent vulvovaginal candidiasis
 - immunopathogenesis, 335
- Retroviruses
 - human endogenous
 - clinical implications, 72
 - letter to the editor, 585
 - nature, 72
 - occurrence, 72
- Rotavirus vaccines
 - overview, 423
- SCID mice
 - study of parasitic disease, 126
- Sequence-based identification of microbial pathogens
 - Koch's postulates, 18
- Transgenic cell lines
 - detection of animal viruses, 321
- Trichinella* spp.
 - clinical aspects of infection, 47
- Vaccines
 - rotavirus
 - overview, 423
- Varicella-Zoster virus
 - clinical features, 361
 - diagnosis, 361
 - epidemiology, 361
 - immune response, 361
 - pathogenesis, 361
 - prevention, 361
 - therapy, 361
